

FabriWave Classic

FabriWave is a lightweight tube and fabric sock display, manufactured from pre-fabricated alloy with auto lock mechanism.

The FabriWave comes in a range of sizes and shapes. Multiple units can be combined to create larger displays, then separated out for smaller events.

FabriWave can be single or double sided, irrespective of shape, making this display uniquely flexible.

Multiple graphics can be produced for each frame and quickly changed for each event. Ideal for product launches.

FabriWave Straight

Shaped panels available

FabriWave Curved

Capsule counter & FabriWave case
